

## FOREWORD

### 2022 S.P.S. - SCHOOL MAGAZINE

We would like to take this opportunity to express our heartfelt gratitude and appreciation to all parents for your endless and continuous support in what has been a very challenging year. It has been heart-warming to see the support and love you give to your children by the excellent turnout at open days, as well as sporting events and interviews.

Toward the end of Term 1 there was a nationwide lockdown, due to the spread of the COVID-19 virus. Packages were available for every student for the ensuing weeks. Face to face tuition was maximised for the remainder of the year. Our numbers had diminished but Management and Staff were very happy to greet returning students. Children revised work and commenced the study of new topics including the study of a Commonwealth country in preparation for beautiful and educational displays, performances and cooking. This was showcased for parents and families in the middle of Term III. As a result of the hard work carried out, children attained an enriched knowledge of different cultures around the world. Great happiness and enthusiasm exuded from the children on the day, which was a resounding success.

*Toward the end of Term II and Term IV it was deemed safe for children to again participate in sports Tournaments and go on field excursions to a variety of interesting places.*

*All the wonderful events can be viewed in class magazines. A colourful, vibrant photographic portrayal of the exciting activities of each class can be enjoyed.*

***Wishing our Samoa Primary families a very happy and especially healthy Christmas and a prosperous New Year.***

### School Athletics Day

It was a lovely morning. I woke up feeling very excited and also a little nervous because today is the day of our athletics at school. My mom said to get ready because it's almost 7:30am. I got ready and my uncle dropped me at school with my sacks and spoons. When we got to school I saw that the school looked very different with different colors on the land. There were many colors like red, green and blue. My color was blue so I went with my other friend who was also blue. The first game was lemon and spoon. When we were about to play it started to rain. So we waited and waited for a long time. We sang "rain, rain go away" but the rain just kept on dropping from the sky. We played in the rain and our team won. We were so happy. The next game was racing. I nearly fainted when the teacher said girls first because I'm not a fast runner.

When we raced I was actually surprised when I came 3<sup>rd</sup> because the girl that was 4<sup>th</sup> was skinny. The race was 70m the next race was even more tiring because it was a 100m. Our last track event was the relay. I didn't run because I did not know we had a relay because nobody told me. Our teacher said that we are in the lead. **Maryah Finau**

### School Athletics Day

On the final week of Term 3, our school held athletics day as usual. It is one school event that every student looks forward to. In this event the whole school is divided into 4 teams which are blue, green, and yellow. For me, I was picked to be in the gold team. Every day after morning prayers, we meet with our team's ad practice the different games that will be coming on the day of the event.

On the day of the event, I got ready with my golden shirt and my black pants. When I got to school, the field was all ready for the track races and the different variety of games that will be happening on that day. Once I got to class, some teams were already letting on who will be winning the athletics. While I was filled with excitement, since it was going to be a fun day.

Once the events started everybody sat in their teams with the excitement of a lifetime. My class level and the 6 level went on to play our first game lemon and spoon. Well I don't care, since my team won the whole event. The ending of that day ended with a smile on my face. My friends and I had a great time and had a lot of fun on that day. Even though the other teams lost, they still had lots of fun. To other people it was not that special but to me it was unforgettable. **Sebastian Paulo**

### School Athletics Day.

Our school athletics day was the best day ever. We played so many field games. On Friday we were put in classes we played only one game and that was the 70m race. It was kind of fun but the other students loved it. On Monday, we were divided into 4 teams, there was red, blue, gold and green. I was so happy when my teacher told me that I was in green because green is my favorite color.

We played so many games such as lemon and spoon, tug of war, sack race and 100m race. It was a rainy day so we played carefully so no one gets hurt. The next game was the sack race. It was kind of hard and the sack were too small. At the end of the sack race I was 3<sup>rd</sup> place but I didn't care. The 3<sup>rd</sup> game was 100m race. The year 6 up to year 8 classes started first, then it was our turn to run. I was scared, but I had to try my best. I ran as fast as I could but lucky I was in 3<sup>rd</sup> place.

Our last and final game, was the game I have been waiting for. It was tug of war. First red and blue pulled against each other. At the end red won. The next was green and gold. I was so excited. When the teacher blew the whistle I pulled as hard as I could but sadly gold won. Everyone cheered for gold. When school finished, my Mom picked me up and my sister. I told everything to my mom and she was proud of me. **Auatama Esera**

### Leaders are Readers.

My teacher leads every full school assembly. Looking at her supervision makes me really want to be a teacher. Conducting the hymns, telling us stories, demonstration of making Samoan foods like supoesi and sapaui especially reading stories to me, makes me happy. These are the things which encourage me to work harder to become a teacher like her. Her facial expression draws the interest of children to listen and learn. Varying her voice make me happier to attend the reading period. I want to be a teacher to help students how to read, write and respect others.  
**Laurelei Palepua.**

### Suiga o le Tau

Ua tele suiga o le tau,  
Ua mafatia ai le fanau.  
Mafuie, afa ma galu lolo,  
Ua sousou mai foi le sami.  
Ua tele tafega  
Ua tatou amo ai le avega.  
O afa malolosi ma matautia,  
Talofae i le lalolagi ua mafatia. **Bob Afamasaga.**

### Environment.

Everywhere there is land  
No more shall be at land  
Very few animals will live  
Insects won't be in it  
Real things will be gone

Nothing will survive  
Map it out  
Environment is all about  
Now we need to save it  
Time will tell.

### Climate Change.

As the world goes forth changes are occurring. Many are now irreversible. Whether we like it or not it is the nature of things and education is need to bring about a change in attitude. These change are physical but also affects our emotions and the mental sense of humanity.  
**Auatama Esera.**

The people of South Africa are friendly and polite. They wear colorful costumes when they perform their dance. The women carry bowls on their heads, which holds water or food. The most popular sport in South Africa is football. They play cricket and rugby too  
**Emmanuel Perez.**

### Water is Life

We need water to survive and to make plants grow. Water is so important. We need water because we will suffer and die without it. So save water and keep water clean for the future. Our bodies use water in all parts of our body. Because our bodies lose water through breathing, sweating and digestion, it is important to rehydrate and replace water by drinking lots of water and eat foods that contain a lot of water.

### **Quade Tanuvasa.**

Education is the most powerful weapon which you can change the world. Education is the passport to the future for tomorrow belongs to those who prepare for it today. Work hard and make it happen. Amazing things happen when you try. Never give up because great things take time. **Miracle Titimaea**

# Country of Study: Republic of South Africa.

**Our country of study is South Africa. Each student presents their posters about the costumes, food, houses and the flag of South Africa. Chakalaka is a staple South African dish made from beans fresh vegetable, onions, pepper and tomatoes. It is a straight forward and spicy recipe. The combination of its spices really makes this dish stand out. You can serve it with bread, rice South African pap, and braai. Their main items of clothing include long shirts and aprons in beautiful printed fabrics. We worked together to collect information about South Africa and we are so happy we know more about this country.**

**Jacob Kolose.**
