

FOREWORD

2022 S.P.S. - SCHOOL MAGAZINE

We would like to take this opportunity to express our heartfelt gratitude and appreciation to all parents for your endless and continuous support in what has been a very challenging year. It has been heart-warming to see the support and love you give to your children by the excellent turnout at open days, as well as sporting events and interviews.

Toward the end of Term 1 there was a nationwide lockdown, due to the spread of the COVID-19 virus. Packages were available for every student for the ensuing weeks. Face to face tuition was maximised for the remainder of the year. Our numbers had diminished but Management and Staff were very happy to greet returning students. Children revised work and commenced the study of new topics including the study of a Commonwealth country in preparation for beautiful and educational displays, performances and cooking. This was showcased for parents and families in the middle of Term III. As a result of the hard work carried out, children attained an enriched knowledge of different cultures around the world. Great happiness and enthusiasm exuded from the children on the day, which was a resounding success.

Toward the end of Term II and Term IV it was deemed safe for children to again participate in sports Tournaments and go on field excursions to a variety of interesting places.

All the wonderful events can be viewed in class magazines. A colourful, vibrant photographic portrayal of the exciting activities of each class can be enjoyed.

Wishing our Samoa Primary families a very happy and especially healthy Christmas and a prosperous New Year.

Our Vegetable Garden

Bright and red tomatoes,
Big brown potatoes.
I cook it up for dinner,
For me and my friend Davina.
Planting your own vegetables,
In a garden that you own.
Leads to a healthy life,
And a happy style.
I grow corn,
With me and my friend Thrown.
It grew so high,
Right up to the sky.
We pant and weed them every day,
Before it lunch time when we play.
I can't believe how big they are grown,
I am thankful and proud for what I owned.
My favorite food is corn,
Seems I was born.
Vegetable are cool,
Just like school.

Kenyan Dish Pilau

I just can't explain how I love this Kenyan Pilau.
Firstly, I was so disappointed because I don't know how to cook it, but when I do a research and find out that Pilau is a healthy dish. The three food groups are mixed in this dish that is why it is a healthy meal. FJ Smith.

School Athletics Day.

I just can't imagine my mind,
How happy am I.
Wearing this blue material,
To show my appreciation to my people.

Take part in every sport is so good,
Show myself to the world that I'm not a fool.
I can do everything in my way,
As you will do it one day.

Country of Study - Kenya

Shikamoo: Welcome to Kenya. I am very happy that I know some of the Kenyan words, the History and their costumes. I am so proud to be part of Kenyan people by wearing my Kenyan costumes. Leo Ott

Our Vegetable Garden

Our vegetable garden,
We eat from it, and it keeps your body starting.
It has cabbages,
As well as some radishes.
Some children said,
I want to go bed.
The teacher denied,
As I almost died.
Our class said they love gardening,
It was just like farming.
The work was almost done,
We also had some fun.
The vegetables are delicious,
Some were noting and it was suspicious.
We water them every day,
Even when some children are away.
We returned back to class,
The teacher told our next task.
One day the fruits or vegetable will be eaten,
Or be a boxing bag and get beaten.
Nathanael

School Athletics Day

In the morning when I woke up, I was excited because today was athletic. My family and I got in the car. My parents drove my brother and I to school. When I go there, I saw one of my friend and a few other children in my class. One of the student in my class chased my friends and I because we were the only green and red.

When school started we went to the hall to say our prayer. Next, the athletics games started. The first event was the lemon and spoon race. The girls played first, followed by the boys. The problem was it rained before the boy's race. We sang a song to stop the rain before the boy's race. The other games, we played was the sack races. The 100m and the relay race. When the athletics finished we all sat on the wet grass. As we waited for the result my heart beat fast but I almost cry when my Gold house won the overall.

Pierre Malielegaoi

Our Vegetable Garden.

Dear vegetable garden,
You still haven't grown and harden.
All I see is mostly peas,
Which are not enough for me.
The wind is now strongly blowing,
But yet you are still growing.
I really hope you grow faster,
And get taller and taste better.
Finally you have fully grown,
After months of planting you on my own.
You started growing as a little seed,
But now I have to start to weed.
Gardening is actually really fun,
But can be uncomfortable under the sun.
Now I have to weed every week,
But doing that just makes me feel weak.

Davina

I woke up and got ready for school. I remember that today was athletics day. I was already prepared for the athletic day. My heart felt so nervous and happy. My brother dropped me at Chan Mow where we waited for our school bus. Athletics day is a day that you have fun with your friends.

We had athletics day at our school field. We played different games. We had four groups of house colors. It was gold, blue, red and green. Two years ago, we had athletics day, a man say, "It not about winning, but it is about having fun". Well, some of the children didn't believe but some did.

The year 1 up to year 4 classes had their athletics day on Thursday but year 5 up to year 8 they have their athletic on Friday. We had athletics day every year.

Tusiata

Our Vegetable Garden.

In our garden, there are various types of plants within. Some of which involve corns, tomatoes, green peppers and cabbages. Both Year 5 Segavao and Year 5 Manutagi took a light stroll to the key garden on Friday to inspect and perform cleaning activities on the garden. The reason for weeding the grass is to provide much space for the plants to grow and to prevent any harmful micro-organisms from affecting the plants. We watered the plants to supply a sufficient amount of water in order for the plants to photosynthesize, oxygen is released into the atmosphere where by living things breathe it in for respiration and to survive. We disposed food scraps in order to decompose these rotten materials to release CO₂ for photosynthesis and to make compost. In conclusion, the activities we performs in our garden contributes to the well-being and growth of the plants and vegetables.

School Athletics Day

On Friday we had school athletics. All the school students were grouped into four houses. The teams were blue, green, gold and red. Mr Selau said a word of prayer before we start of our games. We played and worked as a team.

On that day we played a lot of games. The students had to sit where their houses allocated to sit while the other children's were playing. The teachers were on the field. Ms. Vou and Ms. Taaseu were looking after blue with Ms. Lulu and Ms. Toga. The teachers were looking after gold was Mr. Selau and Green team was Ms. Malama. And red team was Mrs. Augafa and Ms. Mate. After we finished all the games, it was time to announce the scores. The green was first, blue came second, gold third and red fourth. When it was finished calling the scores, we had lunch. We played outside the hall with our class students. The school was finished we lined outside our room and got inside our room and say the prayer before we go home.

Computer Class

Mr. Omana is the best Computer teacher I have ever known.

He looks funny like a clown.

Thank you for teaching me how to use computer, I wish that will be my job in the future.

School Athletics Day

Early Friday morning, I woke up so early. I thought to myself, did I have a nightmare? My mother came to my room and asked why I woke up so early. I laughed and remembered that it was not a dream.

I did not care about anything else. All I was looking forward to was athletics. Being out there in the field and participate. The environment was so colorful. The whole school were in four houses. Blue, gold, green and red team. Some students wore new plain t-shirts and some have old shirts but that was not a problem.

Having fun participating with each other was the happiest day of my life. Our sports day was different from other schools. It is not about winning but having fun.

Faamamu Tafaovale

School Athletics Day

Samoa Primary School has this program going on every year. This events always took place at the end of term 3. It is good to have fun and enjoy before the end of third term.

We used to have sports at our school field. The teachers of Samoa Primary marked the field in order for students to use. The whole School was grouped into four teams. Blue, green, red and gold. Students were classifying according to their class level. All teams cheered for their competition. I felt so happy when I was on the field and I heard my team cheered for me.

Everyone participated and had so much fun on that day. We end up our day with the word of prayer. And that is the best events of my life.

Issao Siemu

School Athletics Day

I felt happy and had fun. Athletics is an event for every school to play. It is something for the children to have fun and be friendly with other students. It is an event to be honest in.

Blue, red, green and gold, the whole school was grouped into those 4 houses. The children were very friendly during the event. We played at the right side where the field was.

On the last day of the week, Friday was the best day. We did athletics because we could have fun and for students to had a good connection with other kids. We enjoyed our day and had so much fun.

Diana Ah Kuoi

Kenya officially the Republic of Kenya and it is a country in East Africa. These students are presenting their posters about the country of Kenya. The houses, costumes and food in Kenya. One of their food is Pilau. Kenyan pilau rice is a simple dish of rice flavored with meat stocked spices and sometimes cooked with vegetables. Their favorite color of costumes is red because it considered important for Maasai warriors to wear it as a way to protect themselves against wild animals.
