

FOREWORD/UPU TOMUA

Greetings and Talofa lava to all parents/caregivers, friends and supporters of Samoa Primary School.

2023 has been a milestone for the school as it has been 20 years since the school first began, with a roll of 210 students and ten teachers. This year there are 486 with two preparatory classes, twenty one teachers and thirteen Teacher Aides. The past twenty years of providing quality education for hundreds of children and seeing them graduate with a solid foundation in education to face the next part of their educational journey, is certainly cause for celebration.

Parents and friends of the school have provided wonderful support for their children's education as well as donating generously for the school's project. A two classroom building was demolished as it was deemed unsafe for occupation and a new solid building now stands in its place. Our heartfelt gratitude and appreciation to all parents for helping to make this project possible and for providing the motivation for your children to learn and strive for the best. It has been most gratifying to see the wonderful turnout of parents and families at children's special days showcasing their learning.

Thank you for always answering our call for assistance. The generous help you have given contributes greatly to the quality learning the school provides. Fa'afetai, fa'afetai, fa'afetai tele lava.

Teachers have prepared photographic accounts of major events this year as well as memorable class projects and activities. They have also written about important school events.

Congratulations to all the students for the enjoyable work presented in the 2023 class magazines.

Thank you to parents, teachers and support staff for all your hard work, making this a very successful year.

Wishing everyone a safe and happy Christmas and New Year.
