## Get Better Soon Nathaniel!

Dear Nathaniel, I really hope you're okay because judging by how Ms. Kelemete said you were sick it did not sound good. I'm sorry that you couldn't take part in the exams because of this but try to think of the bright side, and I'm sure you know what I mean by that. Anyways, I hope that you are better now and we all miss you and are praying for you to come back soon. AKA  
From your frenemy, xoxo

Thank you Nathaniel for helping me for some works to do. I hope you get well soon. I'm sorry that you went here when we did our exam. But don't worry but focus on getting better because the whole class misses you. May God bless you. ❤️❤️

**HOPE SETU**

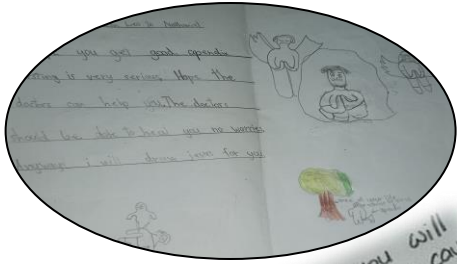

I hope you get well soon. I'm sorry that you weren't here when we did our exams but don't worry about that just focus on getting better because the whole class misses you. Stop eating junk food cause that is why you are in the hospital. Thank you Nathaniel for always helping me even if I don't understand our school work sometimes. Thank you for always being strong for your family. Thank you Nathaniel for being the best son to your parents, being the best brother to your siblings and for being the best cousin for me. I hope you get well soon.... And may God bless you. ❤️❤️
