

Greetings & Welcome to YEAR 5 SEGAVAO

My Life as a Plant

My life as a plant is beautiful and dangerous too. My life is as an orchid. It is a flower that grows on a tree and if someone picks me I may die but I like to be in my tree with my friends. They are pink and orange. We like the wind in our faces and dancing in our petals in the cold breezy air. Sometimes we are red like me or yellow. Sometimes we count the leaves or watch them fall or count the bugs. We have a person who is always watering us. He gives flower food to us. We have a perfect life. *Norma*

My Mother's Love

My mother's love is something that no one can explain. It is made with deep devotion and of sacrifices and pain. It is MY FAMILY. My family is the best family. My family will always help me when I need it. They will always adore me when I'm sad. They never give up on me, I love them because they'll do anything for me. If I'm hungry they will cook food for me or buy food for me. I have ten people in my family and my puppy makes eleven. Sometimes we take family trips to Timaru. We use the swimming pool, the park and the basketball court and then we end the day with fish and chips. We go to the movies. My Mum's endless and unselfish love is enduring come what may. For nothing can destroy it or take that love away. My mother is the best and she will always be there for me. I will never forget the love that she shows me. It never fails or falters even when there are hard times. Roses are red, violets are blue, I'm so blessed to have a mother like you. When I grow up, I will repay you for all of your sacrifices. *Adore*

An Accident

An accident happened in a car. The two cars crashed. The person is close to death. This is called an accident. This is when two cars crash. Will you survive? It is good if you don't die and you survive. It's very good if you don't die. *Walter Fa'amatuainu*

My little brother

My little brother is named Davunau Paulo Fatilua, he is seven years old and he was born in Fiji but I don't know which hospital he was born in. I don't know much about my brother's birthday but I do know he was born in May. Davunau is a very energetic, crazy, silly, funny, cool little brother. He is always trying to be nice to me in front of other people except for my siblings and my parents, but once no one is around, he is so mean. He acts like he is the boss, but he doesn't know that I can literally beat him up, but I can't because if I do, my parents will give me a spanking. Every time when some of my friends like Solema, Tamara and maybe Adore, they all think he is so adorable but it is all just an act. That's why he should get an award for acting. My brother is the worst. Sometimes when I get in trouble because of him, I wish he wasn't my brother but I still love him as my miracle baby brother. *Maoi Fatilua*

The Best Gift Ever

The best gift ever is a Ps5. These things are consoles which you play. The reason why it's the best gift ever is because you get a free game when you get one. It was made in 2020 and their first ever console was made in 1994. These gifts are good. Well I think so because I don't really know if the old days were good or if the old days were bad. The PS5 is really hard to get because it costs \$500. Even the other consoles, you need a parent so you can sign into do everything. It has good graphics and good games. They have good controllers which is like a remote to a console. You need a television too, so you can get to see it. These are one of the best gifts I think. One of their games are free but you need to be online to get it because you need to download it which can be really hard or really easy to download. It is because 1MB means it's going to take ten minutes, but if you have really low data then it's going to take 1 to 9 hours. Good games in the PS5 cost more money, like really good, full games which is a thing that you can play all the time but new games might have good graphics except for free games. The shops are called PlayStation stores and another one is called PlayStation Plus. These games come from two of these shops. PlayStation store is just a shop where you can buy free games or games that cost money. PlayStation Plus is a shop where you can buy games that cost money. It's now for free but you need to pay \$20 a month to do it.

My Hero

I have the best hero; she is my mum. She always takes care of me when I'm sick. She always helps me with my homework when I need help. When I get hungry, she always hides snacks for me. When school has finished, she knows that I am hungry so she will always buy me food. When it is late, I go outside and feed my cow while I wait for her to come home. I run to her and hug her. Whenever my dad doesn't give me money, Mum will always give me five dollars. She means so much to me and one day I will repay her for her sacrifices and care. That's why I love my hero so much and she is the best hero ever. I will never forget you, my hero. *Maliuimai Gatoloai*

Ways of Communication

Hello my name is Charles Wulf. I will be talking about the ways of communication.

1. The first one is a phone - A phone is used to talk and send messages to your family and friends. You use the phone for emergency calls. A phone is the fastest way to communicate and to receive a message quickly and on time.

2. The second one is television - Television is when you watch movies and you can change the channel and hear the news every day and every night.

3. The last one is a Newspaper - You can buy a newspaper at the shop. You can read a newspaper and you can see good news, bad news and breaking news in the newspaper.

Our Class Show & Tell

I learned a lot at the Show and Tell. What I learned was how to count Samoan food like taro and coconuts. I learned how to present the folafola to'ona'i in front of many people. I was scared because it was my first time and my turn to present the folafola to'onai. My mom was there, then I breathed in and out. I was never scared again and I was brave enough to present at that time. My mom was happy.

Faagafua ia lou nofoaga a magalo lou leo, ae faliu ia se silafaga maualuga I lau susugaa le faafeagaiga ma le faletua faapea le nofoalo, Ou te tautala ile faitoonai o loo opea I le maota lea na maau ai Simi ma lo latou aiga alii. Renewable Energy

Renewable Energy is energy that never runs out of a source and my first source is: Solar Energy which comes from the sun. The solar panels capture and store the energy from the sun. My next source is Hydro power: Hydro power is water energy. As you can see a water dam provides and stores the energy from water for us to use when we need it. My other source is Wind Energy: wind energy uses its blades to capture the wind and store the wind energy. My other source is Biomass: Biomass is when you burn rubbish and the heat goes up and we capture it and that's where we get the energy.

My Life as a Plant

I need water to grow and the sun. My name is a rose, my colour is red. I have roots. I have branches. I have leaves. My leaves provide food for the tree.

WHITE SUNDAY.

On Sunday, it was a very special day for us children because we are the children of God. I woke up my siblings and dressed up. We went to church. After church, we came to my house. There was so much food on the table. There was palusami, fish, pork, corned beef, ice cream and cake.

Something happened on that day, we did dance, tauloto and skits. We went to Manono then back to Apia Park store for shopping.

We went to another church in the evening and I fell asleep inside at that time. I dreamt I was a police woman. I woke up and the church had finished. I was happy on that day because I had a new white dress, a new pair of shoes, a new hair band and a new pale.

AN ACCIDENT.

One time, my family and I went to town to go to ride a scooter or electric scooter. We went max speed which was 24km. I went so fast. I already did one lap. I stopped then took a photo then went again. I went max then I soared through the air again.

I soared as I went past my family members. Before I knew it, I'd done two laps, three laps, four, five, six then seven. It felt like a breeze running laps. Then I went down the path way with rocks on the side. I thought it was okay but little did I know a rock was stuck in the middle.

My scooter tripped over the rock and I fell straight on my face. My teeth went inside my gums making me spit blood and my arm got scraped too. Luckily, my brother came just in time to help me get back to my mum. She took me to the hospital and I got cleaned up.

THE BEST GIFT EVER.

The best gift, my siblings and I ever got was a play station 5. It was Christmas morning, we all have breakfast which was Nutella waffles, Nutella pancakes, bacon and egg. After we prayed how grateful we were. Then we started opening our gifts. We really wanted to open the big golden gift. When we opened it, it was the play station 5. We thanked our mum and dad for the gift. Then we opened the play station box and inside wastoilet paper! Then we started throwing at our mum and dad. We opened this tiny gift and we opened it, it was PS5. Seth my brother was hugging the PS5. It was so funny. My best gift was my iPad. My mum bought three iPads and gave one to Aloenah, my nana and me. She said she wanted to give them to good kids and that was my sister and me. She got it, because her iPad broke and I got it because I my old school.

My future gift is a phone. All my cousins have phones. Aa I want is a phone. I am deseperated for a phone. I'll take a broken phone if I can. But if I have to wait I will wait.

THE SAFE PLACE

Once upon a time, there was a brown hen and a rooster. The hen looked around to find a safe place. The first one the hen found was a coconut tree." Is this a safe place?" she wondered. "No, it isn't." The second one, she looked at the biscuit tin. "Is this a safe place?" She wondered. "No, it isn't." The third one, she looked again at the bushes. "Is this a safe place?" She wondered. "No, it isn't." and then the last one, she went somewhere and she looked at an old canoe. "Is this a safe place?" She wondered. "Yes, this is a safe place." She had her chicks.

Every Saturday, he goes to the golf course to play golf. He is so handsome and tall. His favourite food is fa'alifu taro, fish and Koko Samoa. I love my father because he is the best father in the world.
